I was treated at the Clinica Egypt at the Jaz Casa Del Mar Beach by Dr Omar. I was treated very quickly and professionally and was made to feel at ease instantly. Being sick on holiday was a scary thing but Dr Omar and his team of nurses supported me throughout. Nothing was too much for them and despite the numerous treatments needed they remained patient and calm with me at all times.

Dr Omar's communication was to a top level even consisting of us being able to message him and waiting for me at the clinic when it was due to be closed and providing support in the hotel room for check up. I am so grateful to the team who treated me and would highly recommend this company to anyone.

Dr Omar also made us aware of any costs and how to discuss this with our travel insurance company and provided us with the appropriate information needed.

Thank you so much to the team at Clinica Egypt but especially Dr Omar. Me and my partner appreciate everything you have done for me and the care you continue to provide.

We stayed at the Jaz Soma Beach Hotel in March of this year. Unfortunately, after a few days, I got sick, not from the food, but because I had sunstroke and tonsillitis. I really wasn't feeling well and went straight to the doctor. (At the hotel)

I received immediate help and was given antibiotics, medication, and vitamins. After just one day, I felt so much better. The doctor and the nurse, Tareq Aly, helped me so incredibly well; both were very friendly and helpful. Without them, our vacation would have been ruined. Thank you so much!!
